Volume 20, 1988

Combination of illuminants and its effect on colour rendering	J J Embrechts	1
Possible optical, visual and behavioural effects of eyelids	L R Ronchi	11
Obstructed spaces in interior lighting design: Computer analysis	D J Carter and I McEwan	21
Compact fluorescent lamp behaviour under square-wave voltages and other unusual supply conditions	L Di Fraia and F Salemme	29
Lighting works of art for exhibition and conservation	C Cuttle	43
Matrix signs for motorways: System design and optimum photometric features	P Padmos, T D J van den Brink, J W A M Alferdinck and E Folles	55
Emergency lighting: Legislation and application	A A Bullen	61
Glow-to-arc transitions in gas discharge lamps	G M J F Luijks and J A J M van Vliet	87
Diffusing windows: Errors in calculated illuminance	I H Boyd	95
Rotating disc visibility meter: Novel design	J Santamaria, A Plaza and J Bescós	101
Bracelet for total solar shading	J A Lynes and C Cuttle	105
Visual performance using reaction times	M S Rea and M J Ouellette	139
Exit signs in smoke: Design parameters for greater visibility	M J Ouellette	155
Fundamental vision: A glaring case	M J Perry	161
Movement under emergency lighting: Comparison between standard provisions and photoluminescent markings	G M B Webber, P J Hallman and A C Salvidge	167
Measurements of the luminous efficacy of daylight	P J Littlefair	177
Luminous flux measurement	C Gentile, M L Rastello, G Rossi and P Soardo	189
Car headlamps: Influence of dirt, age and poor aim on glare and illumination intensities	J W A M Alferdinck and P Padmos	195
Visibility at a tunnel entrance: Effect of temporal luminance variation	C Bourdy, A Chiron, F Cottin and A Monot	199

Research Notes

Alternative subdivision for the sky vault	J A Lynes	33
Light reflection by prismatic sheets	J G Holmes	115
